

The SyrVet Insider

April 2011 Edition

SyrVet™

NEW!

Hard Pack Disposable Syringes

Our new hard pack syringes with reinforced tips are designed for farm animal use. The positive rubber plunger stopper eliminates costly overflow, and is extra lubricated to assure smooth delivery of medication.

Sterile, latex free, non-pyrogenic, and autoclavable, hard pack syringes are available as luer lock or luer slip in 3cc, 6cc, 12cc, 20cc, 35cc, and 60cc.

Box quantities vary by syringe size. Visit www.syrvet.com for more information!

Aluminum Hub Needles

Tri-Beveled Tips

Poly Hub Needles

Disposable Aluminum Hub & Poly Hub Needles

These aluminum hub and polypropylene hub needles with stainless steel canulas are for large animal injections requiring a sturdy needle. The anti-coring, tri-beveled tips are computer-ground for uniform sharpness, while a silicone coating eases insertion for low penetration resistance and minimal animal discomfort. The needles are sterile and non-pyrogenic.

Several gauges and lengths are available, ranging from 14 gauge to 22 gauge, and from 1/4" to 2". Available in a box of 100 needles or in convenient retail-ready hanging clam packaging in quantities of 6 or 25.

Go to www.syrvet.com for a full listing of available needle lengths, gauges, and quantities!

Number One in Export Sales

SyrVet has exported products since the company's beginning in 1987, currently at more than 50 export countries worldwide and climbing! This includes countries in six continents, including Morocco, South Africa, China, Russia, France, Germany, Italy, Australia, New Zealand, more than half of North America, and all of South America! As a result, we are the NUMBER ONE exporter in the animal health product industry!

How do we do it? Our U.S.A. Export Sales Manager, Venezuela native Jorge Aponte, has been with SyrVet for 13 years, and works hard with and for his customers, building long lasting and trusted relationships. Jorge also works with our Buenos Aires office to handle export sales for our Spanish-speaking customers and vendors.

Why do our export customers like us so much? Working with SyrVet has many advantages, including our experience in accommodating different countries' exporting/importing regulations and guidelines, and our ability to consolidate a variety of special-order items for export in addition to our regular products. Plus, our work efficiency helps keep our prices affordable for all.

Chances are, YOU are one of our export customers! We thank you for your business, and if you like our services, please recommend us to any business acquaintances you have that may need our assistance. Positive word of mouth is the best endorsement we can get to help us continue our growth...and yours!
