Oral Fluidfeeder

A safe and practical way to fluid feed calves! The flexible plastic esophageal probe directs fluids and vital nutrients directly to the stomach. Fluid feeding is also a recommended procedure for rehydrating stressed cattle.

The container holds 4 pints / 2 quarts of liquid/drench feed.

Item # TA20006

Digital Long Probe Thermometer

Our new Digital Long Probe Thermometer is perfect for farm, laboratory, and home use. The thermometer features a 3-inch stainless steel probe, Celsius or Fahrenheit temperature units, an easy-to-read LCD display, and comes with a protective cover.

This thermometer has a temperature range of -58°F to +572°F with an accuracy of $\pm 2^\circ\text{F}$.

Item # TA804-PROBE

SyrVet Insulated Water Nozzle

The SyrVet Insulated Water Nozzle is built tough to endure heavy outdoor and farm usage. The nozzle features a brass valve stem with a permanent adjusting nut for spray control. The insulated handle provides comfort and a hold-open clip enables a continuous spray. The SyrVet Insulated Water Nozzle also features front threading for attaching accessories and is protected by a rubber head guard.

25th Anniversary of SyrVet, Inc.

In 1987, SyrVet founder Daniel Klein relocated from his home country of Argentina to start a business specializing in veterinary supplies. Vowing that his company would be based on the principles of quality products, reasonable prices, fast shipping time, and competent customer service, SyrVet began in the basement of a St. Louis, Missouri home.

The first products offered by SyrVet were reusable needles, pistol-grip syringes, and drenchers. As sales increased, SyrVet quickly outgrew the basement and a new location was needed. On January 1, 1990, SyrVet relocated to Urbandale, Iowa. Business continued to grow and a larger location was needed. In 1993 SyrVet moved to Waukee, Iowa into our newly constructed 5,000 square foot building. Over the next decade business rapidly expanded and we once again outgrew our space. During 2005, SyrVet purchased property across the street. A new building with nearly 50,000 square feet of warehouse space was built and in the spring of 2006 we moved in. In addition to our Waukee home, offices have been opened in Argentina, Canada, and China. Today SyrVet, Inc. employs 25 people, carries more than 3,500 products, and ships to over 40 countries worldwide.

Over the last 25 years Mr. Klein has maintained his vow to provide quality products, reasonable prices, fast shipping, and excellent customer service. From humble beginnings in a Missouri basement to a growing global business, SyrVet continues to be a leader in animal health care products and accessories for veterinary and farm use.
